

...was discovered.
 It was some time before the body of Hughes could be identified. Undertaker J. M. Buck of this place took charge of the remains and shipped them to Portage Wednesday. The funeral took place this afternoon with interment in The Lloyd cemetery at Ebensburg.

Hughes, who was 36 years old, is survived by a wife and 1 child.

COAL PRICES REDUCED

Cresson and Sankertown people now have the advantage of a reduction of the price of coal at the local mines of the Pennsylvania Coal & Coke Corporation. This fact will be most welcome news at the present time, when prices of other commodities are so high generally.

All coal at the local No. 9 mine of the Pennsylvania Coal & Coke Corporation will be sold at \$1.30 net ton at the mines. The coal will be delivered to any place in Cresson or Sankertown boroughs at \$2.00 net ton. All coal sold at the local shaft at actual weight, as each wagon load is weighed before it leaves the mines.

RECITAL AT MT.

ALOYSIUS ACADEMY

The last recital in the series of the musical department was held on the eve of Thanksgiving in the Alumnae Hall of Mt. Aloysius Academy.

The several selections were charmingly rendered by the pupils whose delicate execution showed marked musical ability. Among those who deserve special mention are: The Misses Amelia Calvet, Alma Shoemaker, Rose Broudy, Sara Potter and Mildred Nolan. The following program was given:

- Reading—The Littlest Rebel, Edward Peple, Miss Thillie Fischer.
- Normo—Grand Duo 2 Pianos, Rosellen, Misses Potter and Read.
- Polonaise Liszt
 - Miss Rose Broudy
- Within The Garden—Vocal Solo—Roberts, Miss Alma Shoemaker.
- Presto, from The Moonlight Sonata, Beethoven, Miss Amalia Calvet.
- Grand Galop Chromatique Liszt, Miss Sara Potter
- 'Twas Not Thus to Be—Vocal Solo, Neshler, Miss DeRonda Read.
- Polonaise Strelezki, Miss Mildred Nolan
- Return of Spring Moelling, Miss Margaret McLeavy
- Spring, Haberbier, Miss Berta Gutierrez
- Good Night Nevin, Miss Justine Miller
- Rhapsody Liszt, Helen Oswald

While Mr. Wertz had the support of a few Republicans in this county in securing the appointment, it is said that a number of other prominent Republicans were opposed to the appointment of the Ex-Senator and there is evidence of considerable disappointment among the regular Republican voters of this county in the appointment of Ex-Senator Wertz to the office of County Controller.

George Blair Injured

Hip Injured When He was Knocked Over by a Beam While Placing Bridge

George Blair, a carpenter for the Pennsylvania, Railroad Company and a prominent resident of this place, was painfully injured yesterday afternoon while helping to place a new bridge at Bakerton. The bridge was being dropped into place by a huge steam derrick and Mr. Blair had hold of a beam with which he was helping to guide the bridge into place as it was being slowly dropped by the derrick. The derrick chains suddenly slipped and the bridge gave a lurch, driving the beam against Mr. Blair with considerable force. Mr. Blair was knocked over. His injury consists of painful abrasions about the hip.

EBENSBURG LIKES IDEA OF HAVING OFFICE THERE

Mr. Myers as Referee in Bankruptcy Will Suit County Seat Very Well

While Attorney Herman H. Myers of Ebensburg has not yet received his official commission as referee in bankruptcy in the United States district court, for Cambria county, Mr. Myers' friends in Pittsburg have gone into the matter thoroughly and have advised him that there can be no question as to him having been appointed.

Mr. Myers does not expect to receive the papers commissioning him until possibly a week or so later, as Horace R. Rose of Johnstown, the present incumbent, will not retire before December 17.

Mr. Myers has many friends throughout the county who have been extending to him their hearty congratulations since learning that the appointment goes to the Ebensburger. Attorney Myers' offices are located immediately across the street from the courthouse. Ebensburgers are highly gratified over the knowledge that the appointment goes to the county seat, as they believe too little recognition generally is given Ebensburg in such matters. They argue that it is no more of a hardship for Ebensburg Attorneys to travel to the city than it is for Johnstowners to go to Ebensburg during bankruptcy

The public is cordially invited to hear Dr. Turnbull at the morning services. The topic is one of vital importance to us, all. The Dr. is eminently qualified to tell us about it, about the things we should know concerning the dread disease.

J. S. HELM, D. D. Pastor.

Methodist Church

The following services will be conducted in the Methodist Church next Sunday:

- Sunday school at 2:00 p. m.
- Preaching Services at 3:00 P. M.
- Prayer Meeting every Thursday evening at 7:30
- Epworth League at 7:30 P. M.

A cordial invitation is given to all to attend these services.

JOHN HALL, Pastor.

DONATIONS RECEIVED AT CRESSION SANATORIUM

During Thanksgiving week a number of donations have been received for the patients at the Cresson Sanatorium. The donations consisted of clothing for the boys, girls, men and women and material for making night clothing.

The excavating is about completed and the concrete footings are being put in for the new \$300,000 wing being erected to the sanatorium.

Dr. Cowan has succeeded Dr. Zabakes as resident physician at the sanatorium. Dr. Zabakes has been transferred to the Hamburg Institution.

See No. 18, "The Million Dollar Mystery," Moose Theatre, tonight.

CRESSON'S NEWEST INDUSTRY

The Palace of Sweets candy factor
is working over time producing a
large variety of delicious home-made
candies for the Xmas trade. Watch
for a display of them in their window
and would suggest that you place
your orders early for your wants in
this line, as they are rushed in the
home-made department.

**SANTA CLAUS WILL
VISIT SANATORIUM**

Giant Christmas Tree and Gifts for
the Children Patients

Dr. W. H. Turnbull, head of the
medical staff at the sanatorium, has
announced to the children-patients
that he has been informed by Santa
Claus that he will positively appear
here on Christmas day.

The biggest celebration the sana-
torium has ever seen will be held.
One dining room in the main build-
ing will be fitted out for the day.
There will be a giant Christmas tree,
gaily decorated and it will be sur-
rounded with gifts.

Santa Claus will be on hand to talk
to the youngsters and to help them
enjoy the day. The children are look-
ing forward to a big time and they
are preparing a big program.

There will be a children's chorus
which will render music during the
day. There will be solos, recitations
and readings. Religious services will
be held, too.

The patients dining tables will be
removed into one dining room this
week while the other dining room is
decorated and arranged for the Christ-
mas celebration.

Do not miss the 6th Episode Trey
O'Hearts, Monday evening.

CRESSON RECORD.

CRESSON CAMBERIA CO., PA., FRIDAY DECEMBER 10, 1915

PRICE TWO CENTS

BUSINESS MEN WILL BANQUET VICTORIOUS FOOTBALL TEAM

Elaborate Program Has Been Prepared and Good Time Is Assured

Friday, Dec. 10th, is the day set for the banquet to be given by the business men of the town to the members of the football and track team of the local high school.

The man in charge of the affair is expected to make it the banner event of the year. Never before has more money and enthusiasm been expended. Every one is talking of the elaborate making arrangements to be made.

Every one from the sedate business class to the inconspicuous members of the fishman class is inspired by the prospect to make this "fun-feast" a brilliant success and to render a fitting tribute to the boys who have done so nobly for dear old Cresson.

A member of the track and football team will be on hand to receive the carefully selected toast. Several speeches will be given by Snyder of the School members of the High School.

The post prandial menu will be served.

The athletic banquet will be viewed by the School members. M. Snyder, of Athletics to the fore—Prof. R. Peter.

Athletics—Miss K.

Song—Everybody. W. W. McKin.

"The Ladies"—

Shoulder—F. Wilson.
20 Tackling as a Side-issue—G. Rotandaro.

21 Why I was late in Starting—E. Lowman.

22 How long can a pain in "the Slats" last—P. Parrish.

23 Our Reserves—G. Yahner.

24 "Run em thru, Rube" B. Cleave.

Mr. T. Abernethy, the man who has so ably handled the football games all season wields the staff of Toast master. A better man for the position could hardly be selected. His warm and cheery manner will be the cause of much enjoyment. He promises to permit no long speeches nor any attempt at seriousness and will work the "hook" faithfully on any offender.

In addition to the above attractive program, a pleasing feature of the evening's entertainment will be the banquet. An elaborate outlay of "food stuffs" has been ordered for the occasion.

This fact in itself guarantees a heavy attendance as there are a number of Cresson folks who know a real good feed when they see one.

The following menu has been prepared:

Menu	
Fruit Cocktail	Celery Hearts
Olives	Soup
Chicken Rice	Roast Stuffed Turkey Au Cresson
Pea Patties	Potato Croquettes
Glazed Sweet Potatoes	

UNION CHAPEL FOR SANATORIUM

Cresson, Pa. Dec. 6, 1915.

A committee composed of the Rev. Father P. W. Farren of the Roman Catholic church, the Rev. J. D. Brison of the Methodist Episcopal church Johnstown, the Rev. S. J. Taylor, D. D. of the Lutheran church Altoona, the Rev. C. C. Hays, D. D. of the Presbyterian Church Johnstown, the Rev. J. S. Helm, D. D. of the Presbyterian church Cresson, and the Rev. D. S. Tinker Ph. D. of the United Presbyterian church of Altoona met in the Commercial Hotel, and organized by the election of the Rev. J. S. Helm, D. D., as president, the Rev. D. S. Tinker as secretary and Mr. Charles A. Cunningham as Treasurer.

This committee approved the plans for a Union Chapel to be built on the Cresson Sanatorium grounds which were submitted by Mr. James Hood.

On account of the lack of specific information concerning the building and the lack of endorsement of their respective denominations the members of the committee are not at liberty to sign the contract at this meeting.

The members of the committee are willing to serve on the building committee and also to serve in the raising of what money they can in their respective denominations to carry the work to a successful completion.

These minutes are adopted. Adjournment to meet at the call of the president.

That the above minutes are correct is hereby attested.

D. S. Tinker,
Secretary.

Obituary Notes

John Singer, a highly respected

COONEY'S BOND IS INCREASED

Raised to \$40,000 Following Arguments Before Judge O'Connor

Judge Francis J. O'Connor this afternoon increased the amount of the bond which John Cooney will furnish in connection with the test of the election of H. E. Jones to the county court from \$2,000 to \$40,000. In the count made clear that the originally named was fixed at a preliminary figure and court at the time had in mind a reasonable increase "from time to time."

E. T. McNellis, who appeared for Cooney, informed the court that the contest had been started in January and that the bond would be paid. It must be filed by Friday afternoon of Cooney will fail.

Evans Appeared for Jones. John E. Evans of Ebensburg appeared for Jones. He did not contend that the bond be made \$100,000 as asked in Jones' petition. He called the court's attention to the fact that in 1901, when O'Connor was interested in the county had grown considerably then, he said, the number of precincts having been increased from 91 to 126. The fees for witnesses also had been raised from \$1 a day to \$1.50 and all other expenses had increased.

Mr. McNellis in answer stated that while the voting places had increased, the vote had not had a proportionate jump, only 4,000 being cast this year than in 1901.

The Exhibit of the State Department of Health which was awarded the Grand Prize at the Panama-Pacific Exposition has been shipped to Philadelphia and erected in the Academy of Natural Sciences of Philadelphia on Logan Square, where it will be on display for some time.

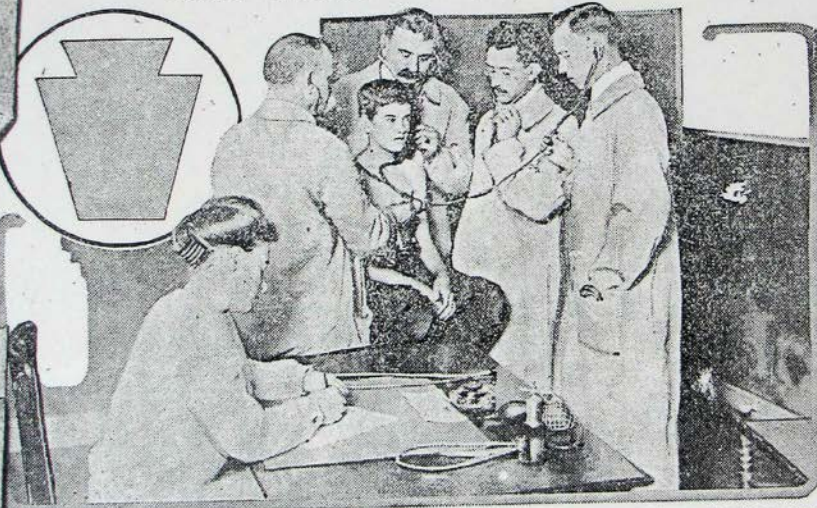

Public health workers the world over centered their attention on it during the entire time that it was displayed in the Palace of Education at the Exposition. It is said to be the most complete Exhibit of public health work which was ever made in this country.

The results of ten years work of the State Department of Health are visualized and thousands of lives which have been saved as a result of the activities make it worthy of the keenest study on the part of everyone.

Required months of work on the part of the most expert model makers and artists to complete the display. Commissioner of Health Samuel G. Dixon, who planned and directed the construction of the Exhibit commences showing it in some of the larger centers of population throughout the State following its exhibition in Philadelphia.

STATE EXPERTS DIAGNOSE DISEASE

2/11/16

Each year more than fifteen thousand Pennsylvanians go to the State Tuberculosis Dispensaries for physical examination. Some of this number have been referred to the Dispensaries by their physician; others, from the various symptoms, such as the loss of weight, a severe and lasting cough, night sweats, seek information as to whether they have contracted tuberculosis.

From handling thousands of cases, the State Dispensary physicians have become exceptionally expert in the diagnosis of tuberculosis. It requires a delicately tuned ear to be able to recognize from the sounds in the chest an early involvement of the lungs.

Each patient is subjected to a thorough examination, and sometimes when the physician in charge, or one of his staff, finds something unusual in the patient's condition, he can secure the attention of the other physicians, and by means of the multiple stethoscope, pictured above, they can study the case.

It is nine years since Dr. Samuel G. Dixon, Commissioner of Health, first organized the dispensary system, and during that period more than eighty thousand people have been examined, of whom seventy-five per cent were found to be suffering from tuberculosis.

2/11/16

CITY DANGERS IN THE COUNTRY

The houses in which we live, according to all students of social conditions, have a decided effect upon our mental, moral and physical condition.

The Bureau of Housing of the State Department of Health, under the direction of Commissioner of Health Samuel G. Dixon, has been engaged in the work of improving the living conditions in certain sections of the Commonwealth, with the idea of evolving conditions without causing a revolution.

The above picture shows that even in semirural districts, where there would seem to be sufficient sunlight and fresh air for all, conditions exist which practically duplicate the worst overcrowding of our cities.

This is the bedroom of a family of four—the father, mother and one child occupy the double bed and the other little girl the cot on which she is seated.

It was found on examination that the father was suffering from tuberculosis, and in the conditions under which they were living, it was in all probability only a question of time until the entire family became infected and dependent.

There were two rooms in the house; the one above and a dilapidated kitchen. Two windows gave all the light and air that they received. There was but one chair in the household, that in the foreground, and when the picture of the kitchen was taken by the Department's photographer, the chair was moved by the housewife to a prominent position in the foreground.

As a result of the State Department of Health's activities this family was moved into a four-room house and the father placed under treatment at a State Tuberculosis Dispensary. In this improved atmosphere and under the supervision of the Dispensary nurse it is hoped that these changed surroundings will make it possible for the father to wage a more successful fight for the recovery of his health and will prevent the remainder of the family

No Game This Week

Our lads will sleigh to Portage to-
night where they will meet the
representatives of Portage High
School. The game is a return game
and is expected to be another victory
for our boys, who defeated the Por-
tage aggregation some time ago on
the local floor.

Cresson H. S. Wallops Conemaugh
The wearers of the Maroon and
Grey asserted their superiority over
the Conemaugh High School repre-
sentatives when the Conemaugh aggre-
gation literary invaded Cresson with
the intention of carrying away athle-
tic honors. That desire, however, was
frustrated by the superior ability of
our boys and lasses, whose earnest
effort were justly recognized.

Boys lineup:
Cresson—47 Conemaugh—17

Killm	F	Shaw
Ivory	F	Ribblett
Smith	C	Custer
Mentch	G	Capstick
Rotandoro	G	Wissinger

Substitutions—O'Donnell for Smith,
Smith for Rotandoro.
Field Goals—Killen, Ivory 6, Bib-
blett 5, Smith, Mentch 3, O'Donnell 2,
Shaw, Wissinger. Foul Goals—Killen
7 out of 17, Ribblett 1 out of 6, Shaw
2 out of 3. Referee—Trexler.

Girls lineup:
Cresson 12 Conemaugh 7

Killen	F	Adams
Gwin	F	Mark
Straw	C	Crum
McTague	G	Ribblett
Noel	G	Harkins

Field Goals—Gwin 3, Adams 1.
Foul Goals—Straw 3 out of 7, Gwin
2 out of 4, Adams 5 out of 11.

Again Cresson H. S. Wins
The following night, Saturday, Feb.
26, the fastest and most exciting
game yet played on the local floor
this season was witnessed. Our boys
proved their worth by defeating the
fast Hollidaysburg High School
team by the score of 23 to 22.
The game started slowly, but it in-
creased in intensity as it progressed
and was marked by unusually thrill-
ing floor work and shooting in a
whirlwind finish.

building, when completed, will be
one of the largest and most substan-
tial in central Pennsylvania.

In the basement, an up-to-date
steam heating plant will be installed,
and a dining room 46x56 feet will oc-
cupy part, with a large kitchen. On
the first floor, play rooms, class
rooms, reception rooms, sewing
rooms and sisters' dining room will
be located, while the third floor will
contain a large dormitory, 58x60 feet;
an infants' dormitory, 58x60 feet, and
a chapel, 48x60 feet. The roof will be
of red asbestos and copper valleys.

The institution will be superinten-
ded by the Sisters of Mercy upon its
completion.

Nurses' Home Will Be Constructed at the State Sanatorium in Cresson

It was learned from official source
today that as soon as the new \$3000-
000 west wing of the sanatorium is
completed the state health depart-
ment will advertise for bids for the
erection of a nurses' home.

The new structure, which is to cost
about \$50,000, will be of three stories,
will be designed similar to the main
building and will contain living
rooms and a dining room for the
medical staff and the attendants.

The house will be built as an exten-
sion to the main building and will
connect with the present dining room
of the medical staff.

Work on the new extension will be
begun by the middle of next summer
and it is the desire of the state de-
partment that the structure be ready
for occupancy before the cold weather
of next winter arrives.

The new west wing will be com-
pleted in May, it is said.

OPEN LETTERS

Thought and Comment handed or
mailed to us this week

companied by the name of the
writer not necessarily for pub-
lication but for our own
protection.

Editor Cresson Record:—
May I take the liberty of asking a
few questions through the columns
of your paper, in which the public
may be interested. What has become
of the Stearns automobile which was
to have been chanced off for the
benefit of the Fire Co. We have
seen it in constant use during the
past summer and it may be worn out,
but a number of people have bought
tickets and the car should have been
chanced off long ago.

ALL ABOARD FOR HEALTH AND HAPPINESS

... aboard for Mont Alto! The forty youngsters pictured above are on their way to the State Sanatorium at Mont Alto. Commissioner of Health Samuel G. Dixon, who refers to them as "his boys," was at the station in Harrisburg to see them on their way through, and the photographer succeeded in getting a picture of him surrounded by his little proteges.

ES Of the 1,150 patients who are waging a winning fight against tuberculosis, more than a hundred are children of from seven to fifteen years of age.

One of the most attractive places at the Sanatorium is the Children's Building. Here boys and girls from all parts of the State who have contracted this disease are given every care to put them in condition to fight the battles of life. Many of these children come from homes where they have not received the attention necessary to build up strong and rugged little bodies, and under the kindly care of the nurses and doctors at this great State institution they thrive most wonderfully. Youth recuperates more rapidly than age, and a few months in the Sanatorium works wonders in the majority of cases. These youngsters are a large and happy family that win the hearts of all who have an opportunity to see them.

TEACHING THE SECRETS OF ECONOMICAL LIVING.

3/3/16

Government reports show that the price of food has been higher during the past year than ever before in the history of the country. This has worked a hardship in many instances upon the poor.

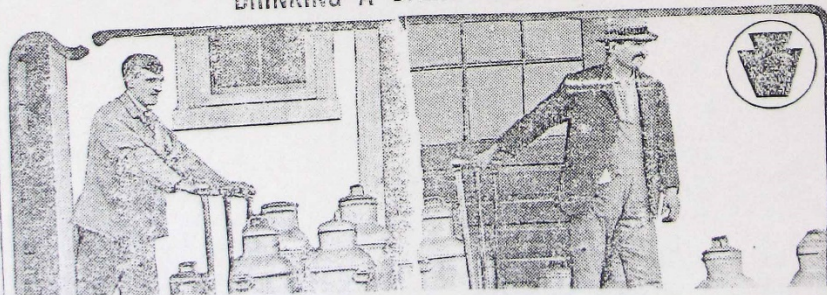

The nurses from the State Tuberculosis Dispensaries find many of the patients suffering from lack of nourishment. This in itself is sometimes a predisposing factor to the disease.

In many cases, however, it is not that the patients are deprived through poverty of sufficient means to purchase nourishing food, but instead of getting those things which sustain them they purchase expensive food stuffs which do not build up the body.

It is one of the regular duties of the dispensary nurses to instruct the people which foods are the most nourishing and economical, and often by the proper instruction they are able, without adding to the expense, to suggest those things which insure a proper diet.

This is considered one of their important duties by Commissioner of Health Samuel C. Dixon, and it has a tendency to encourage economy and insure good health among those who are in need.

WHERE TUBERCULIN IS MADE

The State physicians chosen by the Commissioner of Health, Samuel G. Dixon, for their particular ability in the diagnosis and treatment of tuberculosis, become through the broadest possible experience with every variation of the disease, exceptionally skillful.

There are twelve thousand patients constantly under treatment at the one hundred and fifteen State Tuberculosis Dispensaries and the State Sanatoria at Mont Alto, Cresson and Hamburg. This small army of sufferers contains cases of all types and conditions.

While rest, fresh air and good food are the primary factors in the treatment of the majority of cases of tuberculosis, there are many complicated cases which require special treatment, and in certain phases of the disease, tuberculin is used with excellent results. This is a fluid extract of tuberculosis germs, which is given by hypodermic injection. All of the tuberculin used in the Dispensaries and Sanatoria is manufactured in the Department of Health Laboratory under the personal direction of Dr. Dixon. The picture above shows the process of filling the hypodermic syringes with tuberculin.

THE EXHILARATION OF OUTDOOR SLEEPING

Despite the wintry blasts and the fact that the thermometer has been near zero, many patients of the 116 State Tuberculosis Dispensaries throughout Pennsylvania have been sleeping in the open. To one unfamiliar with the exhilaration of sleeping out of doors, this may seem indulging in an extreme. Few who have once formed the habit can ever be induced to again sleep indoors for, contrary to appearances, out-of-door sleeping should not mean exposure to the cold even at this time of year.

In the circular on tuberculosis issued by Commissioner of Health Samuel G. Dixon, the following paragraph gives instruction for making a "Klondike Bed."

"Sleeping in the open air should not mean shivering in bed. Therefore you should learn how to make your bed. This can be readily accomplished in some such fashion as this: Take four blankets and lay them open, one upon the other, on the mattress. Fold them under so that the edges nearly meet in the middle. Then turn them well under at the foot. Thus you will have made yourself a sleeping bag. Now throw a fifth blanket over the whole so that it can be pulled up loosely to the neck, tuck the sides of it securely under the mattress. Slip down into the sleeping bag from the top and tuck in snugly about the shoulders. Wear a snug sleeping cap with a frill protecting the neck and top of the shoulders."
